TECHNICAL SKILLS

- **Skills:** AI/ML Fundamentals, Azure, API Strategy/Integration, Solution Architecture, .NET, React, Terraform, Docker, DevOps & CI/CD, Data Analysis, Agile Delivery, Stakeholder Engagement
- **Programming Experience:** Python, SQL, C#, JavaScript/TypeScript, Java, C++, PowerShell

RELATED EXPERIENCE

FinThrive — Atlanta, GA April 2025 - Present
Associate Site Reliability Engineer

- Architect and deliver scalable cloud and data solutions on Azure and Terraform IaC, designing resilient, high-performance systems supporting SOAP API platforms processing 1–15M+ daily transactions, with a focus on reliability and data accessibility to enable AI-driven observability
- Drive AI adoption across engineering workflows by building enhanced observability pipelines, including application log enrichment, incident communication, and anomaly detection, driving faster insights and more intelligent incident response for improved customer satisfaction
- Lead escalated, client-facing technical engagements to assess complex challenges, articulate solution value, and define architectures aligned with business outcomes and data capabilities

Free Thinkers Consulting — Atlanta, GA September 2024 - November 2024
Part-Time Software Engineer

- Developed cloud-based automation solutions for a SMB client to optimize loan approval workflows, reducing processing time by 20% and improving client-business communication
- Led the requirement gathering for a ERP-to-Salesforce data migration, architecting a unified data model that improved system communication

NCR Corporation — Atlanta, GA May 2022 - December 2022
Software Engineering Intern/Part-time

- Enhanced data visibility and analytics by using REST APIs to allow users to access real-time device analytics and derive actionable insights from their point-of-sale systems

EDUCATION

The University of Georgia - Athens, GA

M.S. in Computer Science

Research: AI and Machine Learning, Advanced Cloud Computing, Algorithms, Database Management
Minors: Business and Spanish (ILR Level 3 - Professional Proficiency)

Bachelor of Science in Computer Science, Magna Cum Laude

PROJECT EXPERIENCE

AI Incident Communication Agent - FinThrive

- Lead a group of SREs to build and deploy agents workflows connecting Azure Log Analytics, Azure DevOps, and Confluence to automate incident communication to enable rapid incident response and reduce MTTR

EXTRACURRICULARS

Science4GA — Atlanta, GA January 2024 - Present
Data Review Board Volunteer

- Help coordinate data acquisition and research for social and environmental justice initiatives to deliver high-quality insights to local governments and non-profit organizations
- Review Python data science projects as part of the Data Review Board, providing feedback on data insights, visualization, and presentation
